T-Shirt Quilt Grid for Classic T-Shirt Quilts

Feel free to use this grid to help lay out your shirts for your Classic T-Shirt Quilt. For example, if you are ordering a 16 shirt quilt, just fill in the first four rows and first four columns. Using painters or masking tape, number your shirts and write the corresponding number in the space below. The first two numbers have been filled in for you.

If you don't have a preference on shirt placement, or you want us to decide placement for you, there is no need to return this form.
